Good morning Paul,

As chair of Lochrutton Community Council I am responding to your recent email, regarding the above. We are delighted to offer our support and best wishes with your campaign. While we recognise that there is a growing need for efficient delivery of power across the country, and in particular to rural areas, we do not consider this to be the best option and all efforts should be made to find more suitable and less environmentally damaging alternatives to ensure that preservation of this beautiful part of Scotland is uppermost in people's minds.

Kindest regards,

Kelvin Frew
