

Old Knockelly,

Thornhill,

DG3 4NF

22 November 2020

Dear Paul

Application ref. ECU00002128

I am writing on behalf of Tynron Community Council to support the aims of Galloway Without Pylons in its campaign to have the Glenlee to Tongland 132kV Reinforcement Project is undergrounded in its entirety.

Dumfries and Galloway Council state that [‘The quality of the landscape is one of Dumfries and Galloway's major assets’](#). We believe that the current SPEN application for overland pylons will destroy the beauty of this area which is an important part of Dumfries and Galloway’s [vital tourism industry](#), an industry which provides around £300m to the local economy and supports in the region of 7,000 jobs.

We wish you every success in your campaign

Regards

Sue Hall, Secretary, Tynron Community Council
